

## How to Use Voice Broadcaster (Simple)

### Step 1: Voice Broadcaster

Voice Audio Reaches the Receptionist.

The screenshot displays the 'Voice India : Business Voice Broadcasting Server' web application. The interface includes a top navigation bar with 'Home', 'Broadcast', 'Report', 'Setting', 'Freebies', and 'Help'. A left sidebar contains several menu items: 'Quick Dial', 'Voice Recorder', 'Voice Broadcaster' (highlighted with a blue arrow), 'SMS Broadcaster', 'Contact Book', 'Scheduler', and 'Device'. The main content area features a 'Start' button and a row of four icons: 'Select Contact', 'Send SMS', 'Select Voice', and 'Broadcasting'. Below this, there are two panels. The left panel, titled 'Simple Play Voice only', describes a service where '- Voice Audio reaches the recipients.' and includes 'Tutorial' and 'Sample' buttons with play icons, and a 'Start Here' button. The right panel, titled 'Interactive Play Voice with Data', describes a service where '- Voice Audio reaches the recipients With Detail like Payment Amout, Due Date, Student's Marks.' and also includes 'Tutorial' and 'Sample' buttons with play icons, and a 'Start Here' button. The footer contains the text: 'Product By : Laxmi Software Technology | Web : www.VoiceIndia.co.in | Care : +91 8100 82 82 82 | Copyright © 2015 - 2019, All Rights Reserved'.

## Step 2: Select Contact

### Contact Number Format:

Enter 10 digits Number for Indian Number, Leave +91

Use +<Country Code> For Outside of India Number.

Ex. +85221420069 (Here + 852 is Hong Kong Country Code.)(Consider Charge(s) for international call)

**Alternatively:** you can import from text file, Contact Book or History.

**Remove Duplicate:** Software automatically remove Duplicate Number from List

**Remove Problematic:** if you are using for Marketing Purpose, You have too many Number in txt or Excel file for that, and you are Not Sure for Valid Number or not. If you are not checking this option software automatically detect them and give Chance to correct them, either it removes it

**Important Note:** Use your own 1-2 Personal Number first, to check Audio Quality and Sample Voice Call.

The screenshot shows the 'Voice India : Business Voice Broadcasting Server' web application. The 'Select Contact' tab is active, displaying a list of contact numbers: 8100828282 and 8456985698. The 'Total Count' is 2. On the right, there are options to import contacts from a text file, Excel file, contact book, or history. The 'Remove Duplicate' and 'Remove Problematic' checkboxes are checked. Navigation buttons for 'Back' and 'Next' are visible at the bottom.

### Step 3:- Send SMS (Optional)

If you want to send SMS also, simply just check Send SMS also and type message would you like to send. (Character Count per Message Depend on your Network Provider, Generally, it 180 characters Count 1 Message).And, you must select way to send SMS.

**From SIM:** Consider charge as per network Operator charges.

**From API:** Setup Your API from your Login Panel. (**Help > Client Online Login**)

**Another best option is:**

**Send to All:** SMS reaches all contact that you are going to Broadcast.

**Send to Fail:** We Sure that All People can't pick up your Call due to in Meeting, office. So inform those People only using SMS.

The screenshot shows the 'Send SMS' step in the 'Voice India : Business Voice Broadcasting Server' application. The interface includes a navigation menu on the left with options like 'Quick Dial', 'Voice Recorder', 'Voice Broadcaster', 'SMS Broadcaster', 'Contact Book', 'Scheduler', and 'Device'. The main area has a toolbar with 'Start', 'Select Contact', 'Send SMS', 'Select Voice', and 'BroadCasting'. The 'Send SMS' step is active, showing a 'Send SMS Also' checkbox, radio buttons for 'using SIM' and 'using Online API ( Transactional )', a message input field containing 'Hey,We are Invite to you for Birthday Party.....', and radio buttons for 'Send to All' and 'Send to Fail Only (?)'. A character count of '160 Character(s) Count 1 Message' is displayed. At the bottom, there are '< Back' and 'Next >>' buttons.

#### Step 4:- Select Voice

You need to Choose Audio Voice File for Broadcasting. (**Software Support MP3, WAV file**)

If you don't have your file you can create from Voice Recorder. (Using your own Voice or you can use **Text to Speech** Option.)

#### Important Note:

Don't use Audio file that contain Music, DJ, Drums and extra Noise. They are not hearing proper on receivers Mobile.

Remember that Mobile line use 8kbps bitrates only (in India) (other country has may be different bitrates), so, Use Your Own 1-2 Personal Number first, to check Audio Quality and Sample Voice Call.
