## Step 2:- Enter Contact Numbers.

### Contact Number Format:

Enter 10 digits Number for Indian Number, Leave +91

Use +<Country Code> For Outside of India Number.

Ex. +85221420069 (Here + 852 is Hong Kong Country Code.)

(Consider Charge(s) for international call)

**Alternatively:** - you can import from text file, Contact Book.

**Remove Duplicate:** - Software automatically removes Duplicate Number from List

**Remove Problematic:** if you are using for Marketing Purpose, You have too many Number in txt or Excel file for that, and you are Not Sure for Valid Number or not. If you are not checking this option software automatically detect them And give Chance to correct them, either it remove it.

**Important Note:** - Use your own 1-2 Personal Number first, to check Audio Quality and Sample Voice Call.

### Voice India : Business Voice Broadcasting Server

The screenshot shows the 'Select Contact' step in the 'Voice India : Business Voice Broadcasting Server' application. The interface includes a navigation menu on the left with options like Quick Dial, Voice Recorder, Voice Broadcaster, SMS Broadcaster, Contact Book, Scheduler, and Device. The main area has a 'Start' button and a 'Select Contact' button. Below the 'Select Contact' button, there is a text input field labeled 'Enter Contact No : (?)' containing the numbers '8100828282' and '9638777722'. To the right of the input field, there is a section titled 'Or Import From' with buttons for '+ txt File', '+ Excel File', '+ Contact Book', and '+ From History'. Below these buttons, there are two checked checkboxes: 'Remove Duplicate' and 'Remove Problematic'. At the bottom of the main area, there is a 'Total Count : 2' label and two green buttons: '< Back' and 'Next >'. The top navigation bar includes 'Home', 'Broadcast', 'Report', 'Setting', 'Freebies', and 'Help'.

### Step 3:- Compose SMS

If you want to send SMS also, simply just check Send SMS also and type message would you like to send. (Character Count per Message depend on your Network Provider, Generally, it 180 characters Count 1 Message).
